This report was created by the COHHIO HMIS team using Ohio Balance of State Continuum of Care (BoSCoC) HMIS data. It is built according to the project and system performance goals set by the Ohio BoSCoC Board in the [Performance Management Plan](#), with direction from the Ohio BoSCoC Performance and Outcomes Committee.

All HMIS-participating projects in the Ohio BoSCoC are included in this report. Projects that are part of the Continuum but that do not participate in HMIS send data to the CoC and are monitored quarterly, but their data is not included in this report.

EXECUTIVE SUMMARY

Executive Summary

The Ohio Balance of State Continuum of Care (BoSCoC) is seeing some improvements and some struggles as an increase in homelessness begins to show in the data. Fortunately, most of the project-level goals are being met for 2017!

2017 was the first year the CoC incorporated Outreach and Homelessness Prevention projects in our Performance Management Plan. The four Outreach projects in the Ohio BoSCoC had been operating in isolation from each other and the CoC, meaning they had not been incorporated into the overall strategy and effort to reduce homelessness in the CoC. Over the past year, this has begun to change, and the Outreach goals have been coming into clearer view due to increased HMIS and programmatic training efforts. To date, Homelessness Prevention projects are successfully meeting the goals set.

The state Homeless Crisis Response Program funds Rapid Re-housing and Homelessness Prevention programs through the same funding stream, with the understanding that providers will allocate at least 75% of the funding to Rapid Re-housing (and no more than 25% towards prevention activities). One really great change in 2017 has been the strategic increase of Rapid Re-housing spending in comparison to prevention. We ended the year with 90% of the state funding going to Rapid Re-housing.

Rapid Re-housing projects have decreased their Length of Stay, which is a goal we are meeting, but perhaps too well. Shorter stays in Rapid Re-housing are good for those individuals and households who do not need the assistance any longer, but as we begin to target those with more barriers, it could be important to keep some households in Rapid Re-housing longer, where we are able. There have been vast improvements in Rapid Re-housing Housing Move-In Date data collection and reporting over the year, which has allowed us to more effectively measure how long it is taking to house those who need it.

Across all project types most providers struggle with the Increasing Income goal. Compared to 2016, the 2017 data is showing slightly lower numbers, indicating the income goals are either too high or more work is needed to help people increase their income.

At the system level, the Ohio BoSCoC is also not meeting the goals related to Number of Homeless Persons. The 2017 Point in Time (PIT) Count data shows that overall homelessness in the Ohio BoSCoC is increasing, except for Veterans. The stark difference in the outcomes for homeless Veterans indicates that the work to coordinate a system, expand availability of resources, and bring those resources to scale is well worth the effort. With this in mind, we are hopeful that implementation of updated Coordinated Entry systems will prove itself to be as impactful for all of our homeless populations as the Veterans systems coordination effort has been for Veterans.

EMERGENCY SHELTERS

Emergency Shelters

INDICATOR	GOAL	QUARTER PERFORMANCE
Length of Stay	Emergency Shelter (ES) projects will have a participant average length of stay of no more than 40 days	30.4 days
	ES projects will have a participant median length of stay of no more than 40 days	20 days
Exits to Permanent Housing	At least 40% of participants in ES projects will move into permanent housing at exit	63.1%
Receipt of Non-cash Benefits and Health Insurance	At least 50% of adult participants in ES projects will receive at least one source of non-cash benefits or health insurance at program exit	83.9%

 - c. Metrics 7b.1 and 7b.2

*Recurrence reporting on date ranges of less than a year will be run with the QPR’s End Date being the point from which the Recurrence counts backward. So for Quarter 1, the Recurrence will look at 4/1/2015 – 3/31/2017 since it is looking back two years. For Quarter 2, the Recurrence will look at 7/1/2015 – 6/30/2017, etc.

**Similarly, the System Performance Measure reports are run with the QPR’s End Date being the point from which the reports count backward.
